Scheduled Test Not Received	Results not received from scheduled Test	Reported if consecutive alerts received		X
Power Depleted	Client failed to charge	Not Reported until results in Missed Test		X
<p><b>** Clients must take their Scheduled Test at the designated times.</b> As a courtesy Midwest sends follow-up test and attempts to contact client for up to 60 minutes to gain compliance and avoid the need to report a violation. However if a client continually missed scheduled testing this courtesy grace period may be reduced to regain the clients compliance to test at the scheduled times</p>				
<p><b>**</b> When a client has a Failed Test, the following procedure is followed. After receiving the failed results from the breath unit, the monitoring center will call the client alerting them that they have tested positive and will need to continue testing. Monitoring Center will the report to the agency that the client has failed a test. On-Demand Tests will continue to be sent until the client received a Successful test of 0.02 or below. Once testing is completed, a report will be sent to the agency detailing all testing results.</p>
